In the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

- 1-33. (Canceled)
- 34. (New) A package comprising:
- a paper product;

a packaging material that encloses the paper product and defines a headspace therebetween;

metal modified nanoparticles having an effective particle diameter of less than about 500 nanometers, wherein the metal modified nanoparticles are configured to neutralize gaseous or odorous compounds within the headspace.

- 35. (New) The package of claim 34, wherein the packaging material defines an inside surface, the metal modified nanoparticles being positioned on the inside surface of the packaging material.
- 36. (New) The package of claim 34, wherein the metal modified nanoparticles are positioned on an insert located within the package.
- 37. (New) The package of claim 36, wherein the insert is attached to an inside surface of the packaging material.
- 38. (New) The package of claim 36, wherein the metal-modified nanoparticles cover greater than about 50% of a surface of the insert.
- 39. (New) The package of claim 34, wherein the nanoparticles contain silica, alumina, magnesium oxide, titanium dioxide, iron oxide, gold, zinc oxide, copper oxide, an organic compound, or combinations thereof.

- 40. (New) The package of claim 34, wherein the metal modified nanoparticles contain silica.
- 41. (New) The package of claim 34, wherein the nanoparticles are modified with a metal selected from the group consisting of copper, silver, gold, iron (II), iron (III), manganese, and combinations thereof.
- 42. (New) The package of claim 34, wherein the metal modified nanoparticles are copper-modified silica nanoparticles.
- 43. (New) The package of claim 34, wherein the metal modified nanoparticles have a surface area of at least about 200 square meters per gram.
- 44. (New) The package of claim 34, wherein the metal modified nanoparticles have a surface area of at least about 500 square meters per gram.
- 45. (New) The package of claim 34, further comprising unmodified nanoparticles blended with the metal modified nanoparticles.
- 46. (New) The package of claim 34, wherein the paper product is a tissue product.
 - 47. (New) The package of claim 34, where paper product is a paper towel.
- 48. (New) The package of claim 34, wherein the paper product is wrapped around a cylindrical core.
- 49. (New) The package of claim 48, wherein the metal modified nanoparticles are applied to the cylindrical core.
